

# Data Center Technical Specifications

## SH2

### Shanghai Data Center

Datang Gaohong operates state-of-the-art data centers in Shanghai as part of a strategic partnership between Equinix and Datang Gaohong, a subsidiary of Datang Telecom Group. We hold a cross-regional IDC license in Beijing and Shanghai which enables us to offer additional value-added services and with the support of Equinix, we deliver a standard of service consistent with Equinix Data centers worldwide.

We currently operate four partner data centers in strategic locations across Shanghai, providing over 80,000 square feet (7,400 square meters) of colocation space. Our vendor-agnostic data centers provide connectivity to all major domestic connection providers—including China Telecom, China Unicom, and China Mobile—plus the main VPN providers in China, giving customer access to dense concentration of financial services companies, multinational enterprises, and cloud service providers.

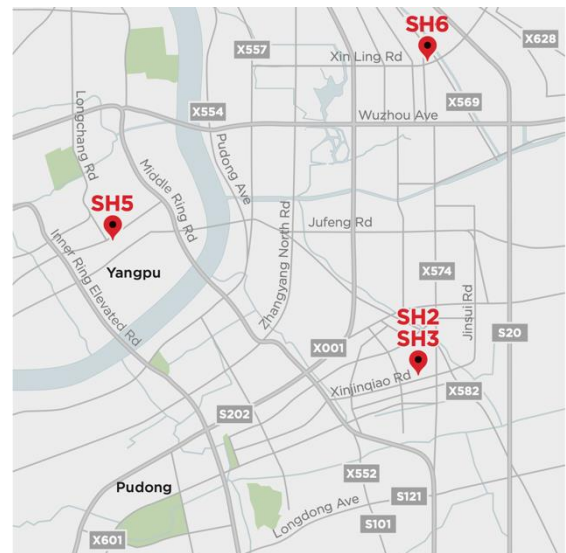

### Shanghai Data Centers Benefits

- Broad and deep digital ecosystems made up of cloud/IT and enterprise customers
- Connectivity to China Telecom, China Unicom, China Mobile and main VPN providers
- Natural hub for trading or financial services
- Provides excellent service in supporting all back office/front office and IT needs in financial services industry
- Bilingual (English and Chinese) customer support
- Fully supported by Equinix and operate to the same global standards

Building 4, 700 Jinyu Road  
Pudong New Area  
Shanghai  
201206 PRC

## Building

### SPACE

Colocation Space	1,002 m <sup>2</sup> (10,781 ft <sup>2</sup> )
Building Type	4-story reinforced concrete structure
Parking	Campus parking (no charge)

### FLOOR

Floor Type	Raised Floor
Floor Load Capacity	11.97 kN/m <sup>2</sup> (250 psf)

### FIRE PROTECTION

Fire Detection	Smoke detectors
Fire Suppression	FM-200

## Facilities

### POWER AND COOLING

Power and Cooling Density	1.0 – 3.0 kVA per cabinet
Utility Feeders	2 (shared with SH3)
UPS Configuration	2N or N+1 (depending on floor)
UPS Redundancy	N+1
Standby Power Configuration	4 x 1,000kVA diesel generators (shared with SH3)
Standby Power Redundancy	N+1
Cooling Configuration	DX Type and CRAC units
Cooling Redundancy	N+1

### SECURITY

Physical	Man trap entry, perimeter fence And gate
Human	24/7 on-site security officers
Electronic	Biometric readers (in common areas), biometric readers (optional), PIN & card readers, CCTV surveillance with 90-day retention, motion detection

## Amenities

- Break Room
- Loaner Tools
- Showers
- Crash Carts
- Work Kiosks
- Wi-Fi
- Conference Room

## Products and Services

### Data Center Services

- Private Cage
- Secure Cabinet
- AC Power Circuits
- Equinix Flex Space Office and Storage
- Antenna

### Interconnection Services

- Cross Connect
- Campus Cross Connect

### Services

- Smart Hands®

## Reliability

Our IBX data centers boast an industry-leading 99.999%+ average uptime record.\*\*\*

\*\*\*As measured from January 1–December 31, 2023, for Equinix IBX operations.

## Certification and Sustainability

### Certifications

- ISO 27001
- ISO 22301
- ISO 9001
- PCI DSS
- SOC 1 Type II
- SOC 2 Type II

### Green By Design

- Granular temperature monitoring
- 100% from I-RECs from China small hydro/wind/solar
- Native plants, FCS, High Efficiency UPS, LED, HEC, Decoupled Dehumidification
